No slam against the Duratec, but "ahead" of the curve? Not really. Chrysler's 3.5L was producing 215 horsepower in 1993, and 253 in 1998, just off the top of my head, which puts the Duratec more "on" the curve than ahead of it. Its now the old Chrysler engine that's fallen behind the curve a bit (no wonder, given the company's financial problems).
