Tire Linc RV Tire Pressure Monitoring System | Lippert

How to Install a Lippert Leveling System? When it comes to leveling a recreational vehicle such as a motorhome, jack placement is the main task. The only difference between a Lippert 6 point leveling system installation and a Lippert 4 point leveling system installation, is the jack placement point. The rest of the method is the same for both.

Plugging in to shore power will help supply the needed voltage and current and prevents overstraining the system. The slide-out motor is usually controlled by a circuit board and relay. There will be a fuse located on the circuit board or in the power line that supplies the slide-out motor. Maintaining the slide mechanism is important.
