Solutions and projects - Visual Studio | Microsoft Docs

Working in Visual Studio, we often find ourselves needing to rename our project and/or solution and the directories they live in. In particular, when we clone a project from Github, what we end up with is a complete, workable solution, but named other than what we would like. As an example, I ...

Visual Studio Solution Folders

Remove the hassle of adding several files to solution folder. Just use the context menu for the solution and just below the option of creating a new solution folder you now find 'Add Folder as Solution Folder'. This will create a solution folder with the same name as you selected and add the items inside of that folder to the solution folder.

Switching to and back from Solution Explorer's non-Folder ...

I was given a simple task of moving the project folders inside a Visual Studio Solution to a different folder because even though we were using Solution Folders feature of Visual Studio, on disk, there were a lot of folders and adding them inside the CI pipelines' path filters was a pain to add and maintain. This solution was already a part of Git Source Control, had internal dependencies and ...

Solution Files: Change Project Directory Location -Deborah ...

With the release of Visual Studio 2017 and the RTM .NET Core tooling, the .NET command line has gone through a transformation. The project.json format is no more, and instead we have returned back to .csproj files. It's not your grand-daddy's .csproj however - the new .csproj is far leaner than previous MSBuild files, and massively reduces the reliance on GUIDs.
