more important than in past years: The next couple years will present you with a unique window of opportunity.

### Glossary of calculus - Wikipedia

The fundamental theorem of calculus is a theorem that links the concept of differentiating a function (calculating the gradient) with the concept of integrating a function (calculating the area under the curve). The two operations are inverses of each other apart from a constant value which depends where one starts to compute area. The first part of the theorem, sometimes called the first ...
