My Stroke of Insight: A Brain Scientist's Personal Journey ... This movie is based on the book and CDs of the same name, about Jill Bolte Taylor, a 37 -year-old Boston brain scientist who had a rare Arterial-Veinous Malfunction (AVM) stroke on the left side of her brain in 1996. She became an infant in a woman's body as a result. Yet she miraculously fully recovered after brain surgery over eight years with the help of her mother. In the book, she details ...

***Stroke is the number one disabler
in our society and the number three
killer. According to the American
Stroke Association, the ischemic
stroke accounts for approximately
83% of all strokes. Arteries carry
blood into the brain and their shape
tapers smaller and smaller as they
travel farther away from the heart.***

And then I realized what a tremendous gift this experience could be, what a stroke of insight this could be to how we live our lives. And it motivated me to recover. Two and a half weeks after the hemorrhage, the surgeons went in, and they removed a blood clot the size of a golf ball that was pushing on my language centers. ...
