with Headstock spindle bored 26mm to clear 25.4mm (1") and incorporating a safe reversing feature.

Myford Ltd Home Page (British Engineering at its best)

The lathe continued in production until 1979 and, because the design was so right to begin with, only very minor changes in specification were made over the years with the same design of cross and top slide units surviving until the late 1990s on the Super 7 based ML7R model. All Myford ML7 lathes included a K prefix in their serial number
