Evidence-based recommendations for natural bodybuilding ...

Natural muscle building potential is one of the most controversial topics in the lifting industry. When you try to assist natural lifters by providing them with reasonable expectations it's a case of you're damned if you do, damned if you don't.. Discussions on how much muscle you can build, or how large you can expect your arms to be, are typically met with an abundance of vitriolic responses.

Thibarmy - Be Your Potential

I've personally been lifting since the age of 15 (27 now), I'm not big and go through phases of training and slacking. For me the biggest advantage that steroids have given people I know, is the ability to train 5 days a week; something that is simply not possible for a natural happy go lucky lifter.

Anabolic steroids, also known more properly as anabolic-androgenic steroids (AAS), are steroidal androgens that include natural androgens like testosterone as well as synthetic androgens that are structurally related and have similar effects to testosterone. They are anabolic and increase protein within cells, especially in skeletal muscles, and also have varying degrees of androgenic and ...

Healthy Living

If your diet sucks you'll never reach your true strength potential. I don't care how "effective" your training program is, how badly you want to succeed, or how good your genetics are. If you want to be as strong as possible you need to get your nutrition dialed in. This doesn't mean you need to ... Continued

The popularity of natural bodybuilding is increasing; however, evidence-based recommendations for it are lacking. This paper reviewed the scientific literature relevant to competition preparation on nutrition and supplementation, resulting in the following recommendations. Caloric intake should be set at a level that results in bodyweight losses of approximately 0.5 to 1%/wk to maximize muscle ...

Determining Natural Bodybuilding and Arm Size Potential ...

FIERCE 5 I decided to design "Fierce 5" because I wasn't completely satisfied with any of the other novice programs that are so popular. In my opinion they all had a flaw or two (slow progression, high volume, low enough volume people lose interest and most of them lack what I'd consider proper balance), albeit small inadequacies in most cases.

Bodybuilding vs. Powerlifting Deadlift | T Nation

If you're a natural lifter, you can't train like an enhanced bodybuilder or action movie star. And if you have average genetics, you can't train like a genetic freak. Sure, it's tempting to copy the training programs of those we admire, but always chasing the next "star program" will get you nowhere ...
