The Journal for Nature Conservation deals with the application of science in the concepts, methods and techniques for nature conservation. This international and interdisciplinary journal offers a forum for the communication of modern approaches to nature conservation. It aims to provide both scientists and practitioners in conservation theory, policy and management with comprehensive and ...

Brief guide for submission to Nature Communications
Competition for space in The Science of Nature is keen, and the journal receives many more good manuscripts than can be accepted for publication. Current rejection rate reaches about 50% of all submitted work. Preference is thus given to scholarly works that present a compelling case for significant advances in a subject area or are of broader interest because of their interdisciplinary nature.
