### **NFPA 220: Standard on Types of Building Construction**

Using the IBC's table 601 is a good starting point to find these figures. When I refer to both of the NFPA pubs the type II structures are broken down to 222, 111, and 000 (table 4.1.1 in the 220, for example). I am aware that the three digits refer to fire resistance ratings of three building elements but I cannot find where I read that.
