The last decades have shown that Nicander's *Theriaca* (second century b.c.e.), a didactic hexameter poem of 958 lines on snakes, scorpions, spiders, and the proper treatment of the wounds they inflict, is a markedly more playful work than most readers thought. Rather than considering the poem as a vehicle of authentic learning, literary approaches to the nature of Nicander's strange poetic world ...

Nicander, Greek poet, physician, and grammarian. Little is known of Nicander's life except that his family held the hereditary priesthood of Apollo at Colophon. Nicander wrote a number of works in both prose and verse, of which two are preserved. The longest, *Theriaca*, is a hexameter poem of 958

Nicander - Wikipedia

Nicander has some claims upon the attention of students both of ancient literature and of ancient science. Medicine, zoology, botany, and mineralogy are the themes of his two extant poems; whatever his exact date he belongs to a period from which little Greek literature of any kind has survived; and among later writers Virgil and Ovid were in his debt.

Nicander of Colophon was a Greek poet, who probably lived in the middle of the 2nd century B.C. He was the author of two surviving poems, 'Theriaca' and 'Alexipharmaca', and also of several other poems that are now lost. Some excerpts from his 'Georgica' have been preserved by Athenaeus; it is likely that this poem influenced Vergil when he wrote his Georgics (see Quintilian, 10.1.56), but to ...
