several days, during which a combat mission will be flown from one of many bases in Europe, attempting to intercept incoming British Bombers.

Full IL-2 1946 mission: Mosquito Night Fighter - YouTube

All the above aircraft could not fly blind at night and had to be equipped with night flying radar. In the case of the Luftwaffe, they used the Lichtenstein radar. By 1943, Germany had developed a radar shield that identified aircraft when they were miles away and gave night fighters a fix on incoming bombers so that the night fighters themselves could then use their Lichtenstein radar before ...

flying in the Defence of the Reich. It was adopted when the Allies had the advantage over German radar controlled interception. The fighters had to engage the British bombers freely as they were illuminated by searchlight batteries, while avoiding their own anti-aircraft fire. After some initial ...

### Nightfighter vs nightfighter over Germany

After over a year of night Zeppelin raids, on the night of 2–3 September 1916, a BE2c flown by Captain William Leefe Robinson downed the SL 11, the first German airship to be shot down over Britain. This action won the pilot a Victoria Cross and cash prizes totaling £3,500 put up by a number of individuals.

### Night Fighter Over Germany Flying

This is a marvellous mixture of humour and reality. It describes the writer's flying career from training in 1942 right through night flying in the war to the aftermath. In spite of the frequent deaths and injuries he maintains outrageous humour and to him it was all great fun. Like all real life, the truth is far more complicated than any fiction.
