Nikon uses a new trick to allow us to select other images during Image Review right after shooting, but prevent inadvertent dial-motion from resetting our shooting settings. If we want to see a previous image while a just-shot image is on the LCD, first tap the left or right button on the big rear control switch, and then the dial and /or that switch will let us change to the other images.

Try setting it to ISO 800 and meter the scene again. While many folks will use a very wide open aperture to completely blur the background, the zone of focus may be too narrow to ensure your subject will be in focus, so it is better to be cautious and use an f/stop that will offer some depth-of-field.
