### Number Talks in High School: Dilemmas and Successes

Number talks were developed for classroom teachers to engage students in “mental math” through grappling with interesting mathematics problems. Educators can use number talks regularly as introductions to the day’s mathematical practice, as “warm ups” for other lessons, or as stand-alone extended engagements with mathematical concepts.

Getting Started with Number Talks - Minds in Bloom

Because the high school I work at serves a very rural and low income demographic, I am still thinking about how I am create a number talk that will build on their experiences (like we did last year with the milkshakes - my students do not go off campus for lunch and the town they live in is in the middle of the desert so there are not really

...

Math / Number Talks

During the 2015-16 school year, one of the strategies that was introduced and modeled during MaRTI was this same strategy called number talks, but this time it focused on the middle grades. The resource that was provided to us was a book called "Making Number Talks Matter" by Cathy Humphreys and Ruth Parker.

### Number Talks | Inside Mathematics

Number Talks can help students take back the authority of their own reasoning through a short, fifteen-minute daily routine, in which they reason mentally with numbers. Our purpose is to help teachers learn how to facilitate this routine so that, over time, students develop a strong sense of the meaning of quantities and operations while ...

Say and write the expression on board (horizontally)

I gave them a clue like the total number of corners or sides, and then they thought about what shape could be hidden and why they thought that. I thought it was a fun way to continue to build fluency and flexibility with numbers and to do some more shape recognition. It added a different context to our number talks. Thanks for the cards!

Number Talks for Middle School | Number talks, Math talk ...

Video clips of classroom math talks posted on Inside Mathematics. An expensive book (\$50.42) on Number Talks for grades K-5. A not-quite-as-expensive book (\$31.22) on math talks for grades K-6. Thanks to Eric Scholz for pointing me to this great doc of "math routines" in middle grades. What we do at the beginning of each class:
