Application server administrator | Oracle Community  
oca oracle application server 10g The book is intended as a comprehensive preparation guide for the Oracle Application Server 10g Administrator Certified Associate (OCA) exam. Beyond that, this is a good reference book on how to set up and manage an Oracle 10g database.

Integrating with Oracle Application Server 10g: OC4J  
In my humble opinion, since the advent of 10g family of Oracle Application Server, a new role of Application Server Administrator has emerged which is different from the role of a DBA. AS Administrator administers the AS instances, environments, components and their integrated configurations whereas the DBA looks after the DB administration and management.
