Oil Painting Color Mixing Guide

▯ Color Mixing Guide Shades and Tints It's a general practice to tint a color with white, thus making it lighter. And shading a color with black to darken it. But this doesn't work all of the time with oil colors.

Artist Grade Oil Colors - Gamblin Artists Colors

Mixing colors is just as important as the technique or style of your work. Choosing the right hues can make a huge impact in conveying the emotion of a painting; it goes hand-in-hand with the subject matter. Consider, for instance, Picasso's paintings from his Blue Period. Would they have been as poignant without the use of blue tones?

Color-Mixing Simplified #01 - Acrylic & Oil Painting Lesson

Between half and three-quarters of the paint on most oil paintings is white, so the white color holds most paintings together. When selecting white oil colors, consider tinting strength. The more opaque the white, the higher its tinting strength and the more it will "reduce" the color.
