Vauxhall Opel Engines - Opel Z18XE Engine (1998-)

The Family 1 is a straight-four piston engine that was developed by
Opel, a former subsidiary of General Motors and now a subsidiary of
PSA Group, to replace the Opel cam-in-head engines for use on mid-
range cars from Opel/Vauxhall. Originally produced at the Aspern
engine plant, production was moved to the Szentgotthard engine plant
in Hungary with the introduction of the DOHC version.
