LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier ' s Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

Option Volatility & Pricing by Natenberg, Sheldon
The most advanced of the strategies I ' m discussing
today is the calendar spreads. This involves trading an
option in the front or second month, for example, and
hedging with an option of the same stock, same strike,
but in a further-out expiration month. The further-out
option can be as far out as LEAPs out a year or two
ahead.
