9 thoughts on " Oracle ESB performance enhancements " Narasimha Kamath 2009/10/05 at 12:39 pm. Hi Peter, Thanks for the good post.I wanted to know about oracle SOA suite 10gR3 (10.1.3.4) with MLR#4.Most of our system created have default value of 1 , how do i come to know for a given environment what is the approximate number of listener ...

Oracle ESB performance enhancements - deltalounge

hi Gurus i have also little confusion with the Usage of ESB. Documents say Service virtualization-"separation of concerns" is the primary usage of ESB. For instance, your BPEL is calling some Database and in future if this database is relocated or replaced then you have to make changes in your BPEL process. But if i use ESB to call Database then i do not have to make changes into BPEL but same ...

ESB performance | Oracle Community

What is Oracle Performance Tuning? Performance tuning is the process of administering a database to improve performance. Performance tuning in Oracle databases includes optimizing SQL statements and query execution plans so that the requests can be completed more efficiently.. The organization of a database the SQL statements used to access that data, determine the level of resources needed to ...
