Oracle's Primavera P6 EPPM is a cloud based Software As a Service solution backed by a global network of Oracle Project Portfolio Management

See more. Act faster. - Oracle

Oracle PJM is not that much difficult if you know Oracle's other module. You just have to add project/task to track all your transaction, costing, planning etc. Sieban manufacturing is almost same to this where you track everything with a number. I would suggest first read Oracle MRP then try to implement MRP in project manufacturing environment.
