anti-clockwise. Adding more weight (paperclips) will make the helicopter fall faster. PAPER HELICOPTERS

Making Paper Helicopters - CuriOdyssey

Since the paper models have no motor, they only have one source of lift. As the paper models fall they will spin, imitating the rotation of the rotor blades of a helicopter. Because there is no thrust to produce upward movement, the helicopter will not fly upward, but the spin will reduce the rate of fall by producing lift, resisting the force ...
