On a macro scale, the shift away from direct patient-provider engagement has diminished the perception of the central role radiology plays in patient care. As a member of the Radiological Society of North America (RSNA) Patient-Centered Radiology Steering Committee, I was involved in a recent project in which we surveyed 694 RSNA members on various aspects of patient-centered radiology.

Patient centred care in diagnostic radiography (Part 2): A ...

The emergence of consumers as the central decision makers in health care and the trend toward greater patient self-reliance will require a shift in the traditional business model of radiology practices toward a patient-centered model in which radiologists are reintegrated into direct patient care and imaging processes are redesigned around patients' needs and preferences.
