Pragmatics of Human Communication: A Study of ...

Of all the forms of human communication, which includes the written and spoken word, body language, and so forth, facial expressions are recognized as among the most salient and influential. Researchers reserve the term 'facial expression' for those recurring configurations of facial muscle movements that communicate some thought, emotion, or behavior.

Paul Watzlawick - Wikipedia

Pragmatics is a branch of linguistics concerned with the use of language in social contexts and the ways people produce and comprehend meanings through language. The term pragmatics was coined in the 1930s by psychologist and philosopher Charles Morris. Pragmatics was developed as a subfield of linguistics in the 1970s.

Pragmatics of Human Communication: A Study of ...

If the schizophrenic behavior is observed with etiological considerations in abeyance, it appears that the schizophrenic tries to not communicate. But since even nonsense, silence, withdrawal, immobility (postural silence), or any other form of denial is itself a communication,...

Pragmatics of Human Communication by Paul Watzlawick ...

The book Pragmatics of Human Communication, published in 1967, was a groundbreaking statement about the functions of interpersonal communication, particularly as it relates to behavioral and psychiatric problems. The two major contributions of the book were its presentation of axioms of human communication and elaboration of the double-bind hypothesis associated with family interaction and schizophrenia.
