Pearson Intermediate Accounting Vol 2

Debits and credits occur simultaneously in every financial transaction in double-entry bookkeeping. In the accounting equation, Assets = Liabilities + Equity, so, if an asset account increases (a debit (left)), then either another asset account must decrease (a credit (right)), or a liability account must increase (a credit (right)). In the extended equation, revenues increase equity ...

Production is the process of combining various material inputs and immaterial inputs (plans, know-how) in order to make something for sale (output). It is the act of creating an output, a good or service which has value and contributes to the utility of individuals. The area of economics that focuses on production is referred to as production theory, which is intertwined with the ...
