The component of wisdom that is correlated most strongly (and inversely) with loneliness is compassion. Other data also suggest that enhancing compassion may reduce loneliness and promote greater well-being. 10 Cross-sectional studies show higher levels of wisdom, especially the compassion component, in older than in younger adults. Additional ...

Telephone triage, however, does not involve making diagnoses—nursing or medical—by phone (ANA, 2019). Telephone triage is focused on assessment and disposition. The clinician’s disposition, also known as a referral , is defined as a directive to the patient about the time, place, and reason for further evaluation and/or treatment.

Caffeine is used in: Bronchopulmonary dysplasia in premature infants for both prevention and treatment. It may improve weight gain during therapy and reduce the incidence of cerebral palsy as well as reduce language and cognitive delay. On the other hand, subtle long-term side effects are possible.
