MILPA – Cultivating Change Makers

A barrister is a type of lawyer in common law jurisdictions. Barristers mostly specialise in courtroom advocacy and litigation. Their tasks include taking cases in superior courts and tribunals, drafting legal pleadings, researching the philosophy, hypothesis and history of law, and giving expert legal opinions.. Barristers are distinguished from solicitors, who have more direct access to ...

The second law of thermodynamics establishes the concept of entropy as a physical property of a thermodynamic system. Entropy predicts the direction of spontaneous processes, and determines whether they are irreversible or impossible, despite obeying the requirement of conservation of energy, which is established in the first law of thermodynamics. The second law may be formulated by the ...

Dictionary of Law - Oxford Reference

This book charts the changes in crime control and criminal justice that have occurred in Britain and America. It then explains these transformations by showing how the social organization of late modern society has prompted a series of political and cultural adaptations that alter how governments and citizens think and act in relation to crime.

SuperCollege Scholarship

During the colonial period the island was commonly called Santo Domingo, named for the capital city (now the national capital of the Dominican Republic), and that name has still been used sometimes. The entire island has also been referred to as Haiti, supposed by some to be the precolonial name used by aboriginal Indians (the Taino), who also called it Quisqueya.
