answers to your Physics questions ASAP, ask one of the Tutors here on JustAnswer. JustAnswer makes it easy for you to get answers to Physics questions like these:

This Is The Physics Of Light In Motion - Forbes

Express your answer with the appropriate units. SOLUTION: First off I'm going to convert all of the units to SI units diameter = 1.50 cm = 0.015 m spacing = 0.700 mm = 7×10^{-4} m The energy stored in a parallel plate capacitor is determined using the following formulas $U = Q^2 / (2C) = (CV^2) / 2 = (QV) / 2$

Physics Fix 27 Answers

The correct answer for question 10 was TRUE. The rope is simply moving up and down. A disturbance in the rope moves left to right, but the rope itself is only moving up and down. Although the rope itself doesn't move from left to right, we can calculate how fast the disturbance moves in that direction.
