Pipelines Platforms And The New

The party is against new pipelines — especially Energy East, the proposed pipeline that would have run through Quebec. TransCanada cancelled it in 2017, after stiff protests and a federal change in the approval process. ... The party would also create new rules for social media platforms and fine them for keeping hate speech online. It ...

2019 federal election: Compare the party platforms

Azure Pipelines combines continuous integration (CI) and continuous delivery (CD) to constantly and consistently test and build your code and ship it to any target. Continuous Integration (CI) is the practice used by development teams to automate the merging and testing of code.
