Plant Systematics Singh Gurcharan

Plant embryonic development, also plant embryogenesis is a process that occurs after the fertilization of an ovule to produce a fully developed plant embryo. This is a pertinent stage in the plant life cycle that is followed by dormancy and germination. The zygote produced after fertilization must undergo various cellular divisions and differentiations to become a mature embryo.

Lotos – Wikipedia, wolna encyklopedia

Classification APG III (2009) Classification APG III (2009)
