The Political Economy of New Regionalism in Northeast Asia ...

Political economy, branch of social science that studies the relationships between individuals and society and between markets and the state, using a diverse set of tools and methods drawn largely from economics, political science, and sociology. The term political economy is derived from the Greek polis, meaning "city" or "state," and oikonomos, meaning "one who manages a household ...

Political economy | Britannica

--Gary M. Anderson, Public Choice 'All in all, The Political Economy of the New Deal is a well-written book that makes us think further about the motives of the New Dealers and politicians in general. It is essential reading for anyone interested in the New Deal and the politics of the 1930s.' --Gene Smiley, The Independent Review

Political economy - Wikipedia

The New Left was a label applied in part to a loose left wing movement in the US during the 1960s. It grew partly due to dissension about the Vietnam War. It had a political and economic yearning for a system different from what existed in the US at that time. And yet they had few illusions about Soviet communism.

New Political Economy of Europe

The aim of the New Political Economy is to understand important issues that arise in the policy sphere. It is not, as is occasionally hinted, an effort by economists to colonize political science.

Rethinking Political Economy | Boston Review

Political economy is the study of production and trade and their relations with law, custom and government; and with the distribution of national income and wealth. As a discipline, political economy originated in moral philosophy, in the 18th century, to explore the administration of states' wealth, with "political" signifying the Greek word polity and "economy" signifying the Greek word "oikonomía". The earliest works of political economy are usually attributed to the British ...

Political Economy - Definition, Components, and Theories

Rethinking Political Economy begins with a world in crisis—after forty years of market fundamentalism—and asks how we build a new one. We debate new ways to think about protecting the planet, the relationship of equality and democracy, the need for racially inclusive prosperity, the promise of industrial policy, the dangers of concentrated economic power, and a revival of investment in ...
