Relieve Costero activity

Know your fitness level. If you're unfit or new to exercise, be extra cautious when working out in the heat. Your body may have a lower tolerance to the heat. Reduce your exercise intensity and take frequent breaks. Drink plenty of fluids. Dehydration is a key factor in heat illness. Help your body sweat and cool down by staying well-hydrated ...

Your fitness level also determines your pulse rate. Research conducted by the American Heart Association revealed that a well-trained athlete could have a resting pulse rate of 40-60 beats per minute. Generally, a lower pulse rate indicates that an individual has better cardiovascular fitness and a more efficient heart function.
