Colombia is a one of the most biologically diverse countries in the world: although it takes up slightly less than one percent of the Earth's surface, it is home to approximately ten percent of the world's plants and animals, with a rich variety of flora and fauna and a diversity of primate species that is only superseded by Brazil and Peru in ...

### Amazon.com: Customer reviews: Primates of Colombia ...

A "primate" refers to any member of the biological order Primates and contains species that are commonly related such as monkeys, lemurs, bush babies and apes. Humans belong to the category of apes. Primates are found in all continents around the world, with non-human primates mostly occurring in Africa, Central and South America and southern Asia.

### List of primates of Colombia - Wikipedia

Colombia is a one of the most biologically diverse countries in the world: although it takes up slightly less than one percent of the Earth's surface, it is home to approximately ten percent of the world's plants and animals, with a rich variety of flora and fauna and a diversity of primate species that is only superseded by Brazil and Peru in number.

### Primates Of Colombia

The primates of Colombia include 41 extant species in 13 genera and five families. Additionally, 12 fossil species in 10 genera and five families have been identified in Colombia, mainly at the La Venta Lagerstätte of the Honda Group, mostly from the so-called "Monkey Unit", "Monkey Beds" or "Monkey Locality", the richest site for fossil primates in South America. As of 2013, of the 30 fossil primate species found in South America dating to the Late Oligocene to the Pleistocene, twelve are ...
