Science subject matter focuses on the science facts, concepts, principles, theories, and models that are important for all students to know, understand, and use. Tables 6.2 , 6.3 , and 6.4 are the standards for physical science, life science, and earth and space science, respectively.

Environmental education - Wikipedia

Environmental scientists and specialists work in offices and laboratories. Some may spend time in the field gathering data and monitoring environmental conditions firsthand, but this work is much more likely to be done by environmental science and protection technicians. Fieldwork can be physically demanding, and environmental scientists and
