Eko Air Cooler Radialight Aer Pro - WinWin

Air/water coolers . Air/water coolers are mainly used in the electromechanical industry for carrying off heat when normal surface cooling is not possible or a specific IP protection class required. Typical of these systems is the cooling of the machine primary (closed) air circuit by means of a secondary (fresh or sea water circuit).

## Read PDF Pro Klima Air Cooler Service Manual

Using Hydro-Chill technology, Arctic Air Cooler draws in dry, hot air, while the evaporative water filter instantly transforms it into humid, refreshing air and removes dust particles in the process. All you have to do is pour water into the 750ml reservoir, plug the compact device into any standard outlet or USB port, and the whisper-quiet, two-speed fan will start blowing.

### Goodfellas Heating And Cooling - Air Conditioning

The compact, eco-friendly personal air cooler that pulls warm air from the room through its evaporative water filter to humidify and cool it! Arctic Air™ cools, humidifies, and cleans the dust particles for better air!
