Problem Solving and Decision Making. Much of what managers do is solve problems and make decisions. Decision-making is a key role of a manager and leader. Some managers find this to be one of the most difficult tasks to perform. They have a fear of failure, and procrastinate mainly because they have a lack of a structured approach.

Problem Solving And Decision Making

The relationship between decision-making and problem-solving is complex. Decision-making is perhaps best thought of as a key part of problem-solving: one part of the overall process. Our approach at Skills You Need is to set out a framework to help guide you through the decision-making process.

Effective Problem Solving and Decision Making – Working in

...

The major difference between the two is; problem solving is a method while decision making is a process. Problem solving, as the name implies, is solving a problem. Meaning, it is a method wherein a group or an individual makes something positive out of a problem. Decision making, on the other hand, is a process that is done many times during problem solving. Decision making is the key that will help in reaching the right conclusion in problem solving.
