History of Women in IT: 6 Female Pioneers in Computer Science

Ada Lovelace (1815-1852) Ada Lovelace was an English mathematician and the writer of the first published computer program. She was originally named Augusta Ada Byron and was the daughter of the famous poet, Lord Byron, and his wife, Annabella. In 1835, Ada married William King, ten years her senior, and when King inherited a noble ...

Brief Biography. Ada Lovelace-nicknamed Princess of Parallelograms by her mother-was a computing pioneer who lived from 1815 - 1852. She earned that designation primarily through her work with Charles Babbage's analytical engine. Though there is some dispute about the extent of her contributions, consensus opinion indicates that she was responsible for the publishing of the first ...
