Putsch SVP 133 Vertical Panel Saw - RT Machine Company  
The playing is more supple for " Da poi che vidi vostra falsa fede " by Palestrina. That work represents another common category of instrumental music in the 16 th and early 17 th century—arrangements of vocal works. Before Palestrina became the poster boy for the Counter Reformation and the model for perfect sacred music, he was a typical composer of his time.

Horizontal & Vertical Panel Saws - Putsch® Group  
The special edition Putsch ® SVP 145 has a saw beam that can tilt for vertical and horizontal 45 ° degree miter cuts on the panel edge. This function is comparable to a circular saw with a tilting blade. This is the only standard panel saw worldwide with a tilting unit for miter cuts.
