## **Polynomial Puzzles 1: Adding and Subtracting Polynomials**

In groups of 2 or 3, students will complete a polynomial puzzle using the skills they have learned today. I will explain directions to the class using Slide 16, and then have two students (one volunteer, one non-volunteer) repeat the directions back to the class.. After 20 minutes we will reconvene as a whole group, and students will round-robin correct answer pairs aloud to the class.

## **Polynomial Puzzler - Illuminations**

My high school class ended the year with a review of multiplying and factoring simple polynomials. We played this matching game, and then I gave them a puzzle worksheet. I liked this idea, but I didn't like the decoded answer. In my opinion, puzzles should give the student a "reward" for solving them --- maybe...
