{The QM coordinator is the individual responsible for managing QM activities at the clinical site and is named in the Clinical Quality Management Plan. The QM coordinator is also likely to be the author of the QM Summary Report. If this is not the case, include the name and signature of the report author in the set of signatories.}

Quality Improvement - Academy of Nutrition and Dietetics

Quality in healthcare consists of three components, patient experience, safety and effectiveness. The Process provides a clear framework for identifying priorities where the dietetic intervention will lead to improvements in at least one of the domains of quality. During the dietetic intervention the dietitian will monitor and review progress.
