Technical Documents - Barr-Thorp

This manual is a reference guide for the hardware of the Quantum automation system. . Quantum RIO head and drop modules use a S908-based networking I/O. The EtherNet/IP to Modicon S908 gateway allows an Allen-Bradley Programmable Automation Controller (PAC) to control Modicon S908 I/O devices. The gateway allows a phased migration approach to be used when upgrading an S908 based Modicon 984, 584, or Quantum control system.
