Start your review of Question Everything: 132 science questions - and their unexpected answers. Write a review. Oct 25, 2014 Brian Clegg rated it liked it. I am very fond of these New Scientist books that bring together question and answer sessions from the weekly magazine's Last Word column. The idea is simple - readers send in questions, other readers provide answers (which I assume are only ...

### **The 20 big questions in science | Science | The Guardian**

“Ever felt tired? Like existentially tired? Where you lose the sense of identity, structures, language, reason, being and time. Where you can't see a destination and you can't find a return, where even when you return its not a return to yourself rather it is a turn to a realisation that you have lost yourself somewhere between 'the you' and 'the self' and this dichotomy of what ...
