Context. The Phenomenology of Perception is in some respects less, but in many respects more, than its title suggests. It is not a systematic orderly analysis, along Husserlian lines, of perception regarded in isolation from other modes of human consciousness. Rather, it is a kind of ontology of human existence,...

Questions of Perception: Phenomenology of Architecture ...

Psychology and phenomenology. The point of going through the psychological phenomena in parts 1-3 of the introduction was to raise the problem of the constitution of the world for the subject. Merleau-Ponty believes that starting instead from the "natural attitude" (as Husserl does) avoids facing this critical issue.
