The R5-series astromech droid was a line of low-cost astromech droids built by Industrial Automaton. Based upon the success of prior astromech models, such as the wildly popular R2-series, Industrial Automaton intended the R5-series to cater to budget buyers at the cost of some functionality. Because of their inexpensive construction, however, droids of this series were plagued by a number

The P2-series astromech droid was Industrial Automaton's first astromech droid prototype for the R-series, using a rounded body design that would later prove popular with the R2-series astromech droids. P2 units were 2.3 meters tall astromech droids with three wheeled legs, a rotating head dome, and retractable manipulator arms. The design was not successful at this point: the P2 droids

Hasbro star wars interactive r2d2 astromech droid robot manual  
The R5 series astromech droid was a model of R-series astromech droid. Cut-price versions of superior R2 units, they were low cost, but prone to malfunctions, defects and bad attitudes. Standing 0.97 meters in height they generally had shorter, cone-shaped heads and were equipped with repair arms. R5-D4 was one of the last units produced in the R5 line. R5-D8 and S4 were R5 droids that
