R4 cards - Nintendo ds r4 - R4i sdhc Official website
The R4 (also known as Revolution for DS) is a series of flash cartridges for the Nintendo DS and Nintendo 3DS handheld system. It allows ROMs and homebrew to be booted on the Nintendo DS handheld system from a microSD card. This allows the user to run homebrew applications, to store multiple games on a single memory card, and to play games that have been backed up by the user.

R4 R4i SDHC Revolution for NDSi/NDSL/NDS R4i Cards R4 Cards

The R4 has no built in storage for its software, it keeps all needed files on the MicroSD card, this makes upgrades easy and the potential for damage is kept extremely low. The system software for the R4 DS is called the Kernel , download the kernel files from the respective R4 or R4 SDHC homepage above (the kernels are unique for each device).
