Airbus A319/320/321 Notes - Airbusdriver.net

We are building an Airbus A320 simulator "as real as it gets" Targetted towards the advanced home cockpit simulator community, we are building a truly spectacular A320 simulator that makes use of a real original Airbus cockpit, combined with super detailed and realistic own developed software.

FMGS | Soarbywire

It's a global METAR fetcher :-). No way to save weather situation, I'm afraid.. Also, other than tuning ATIS, no way to see a graphical-based representation of the METAR data on the Map, like in ELITE (picture below from ELITE v8.6 Genview ESPO). It would be great to have it for X-Plane 11 - weather observations visualization on the Map!

Flight Data Recorder Read-Out Technical and Regulatory Aspects

Raw data means data read on the basic instruments. Not-raw data means enhanced information built from raw data and/or flight management system. Flight director bars are not raw data, but a computation from basic air data, desired airspeed, roll angle limit, etc. At the next higher level, the autopilot can use the FD data to fly the aircraft. Similarly desired speed can be determined ...
