The information provided herein is a reference provided to you at no charge. The information provided is based, in most cases, on the original OEM specifications. If your vehicle was originally charged with R12 refrigerant, for example, the oil type specified, 'mineral', will not apply.

### REFRIGERANT CHARGE GUIDE TRACTOR - WordPress.com

Do not work on the refrigerant circuit from an inspection pit. As gaseous refrigerant is heavier than air, it can collect in high concentrations there. Do not smoke! Refrigerant can be broken down into poisonous substances if it contacts cigarette ash. Do not introduce an open flame or hot metal in the immediate vicinity of refrigerant.

### Understanding your tractor's air conditioner - Progressive ...

On my cab tractor,the cab manual shows a sight glass on the receiver/dryer that shows the state of charge. With the AC system operating,there will be very few bubbles in the sight glass window if the charge is correct. Should there be lots of bubbles in the sight glass,the system is low on charge.
