have been taken from information provided by actual manufacturers but we can accept no responsibility for inaccurate information as we have just compiled this list from many sources and have not checked all colour variances ourselves.

### Download Instructions

Revell Color, a durable synthetic resin enamel lacquer, is preferably used for the surface treatment of plastic models. The special material composition does not corrode the plastics, but ensures that the high-quality appearance remains for many years. Of course, the plastic model building colours can also be used to paint numerous other ...
