Revision image. Functionalists see the family as being integral to the 'functioning' of the social body. This has to be understood in the same way the heart is a functional prerequisite (basic need) of the human body. Using this same principle the family is seen as a functional prerequisite of the social body, without it the social body (society) would fail to function properly.

The commons is the cultural and natural resources accessible to all members of a society, including natural materials such as air, water, and a habitable earth. These resources are held in common, not owned privately. Commons can also be understood as natural resources that groups of people (communities, user groups) manage for individual and collective benefit.
