Understanding Recurrence | American Cancer Society

Network governance is "interfirm coordination that is characterized by organic or informal social system, in contrast to bureaucratic structures within firms and formal relationships between them. The concepts of privatization, public private partnership, and contracting are defined in this context." Network governance constitutes a "distinct form of coordinating economic activity" (Powell ...

Chapter 6: Extremes, Abrupt Changes and Managing Risks - IPCC

At the World Health Organization (WHO), where I am part of the climate change team, we are seeing the devastating consequences of under-prepared health systems when they are faced with these increasingly regular shocks. Some of these health impacts have a clear climate change signature, such as the increasing frequency and strength of extreme weather events or the expanding range and spread of ...

Regulation & Governance - Wiley Online Library

If a risk is characterised by high uncertainty the main emphasis will be on reducing vulnerability of the system to cope even with surprises (Bloesch et al., 2015). In a situation of high ambiguity a more discursive approach with stakeholder participation is asked for in order to find an acceptable way to reconcile conflicting values and world ...

Risk-Benefit Analysis - an overview | ScienceDirect Topics

2.2. Study approach. South Africa was selected due to the rapid urban growth with increasing pressure on the ecosystem of cities. Considering the risk of flood occurring in a given year at about 83.3% (Zuma et al., 2012), in the context of climate change and disaster risk, there are looming problems in the management of disaster in the country. Hence, this study adopts descriptive and ...
