Rossi Motoriduttori is one of the biggest European industrial group for production and sales of gear reducers, gearmotors, eletronic speed variation and electric motors. We 'thinking ahead' meaning the unremitting quest for excellence, putting the customer and his needs at the centre.

Worm gear reducers and gearmotors | Rossi

APPLICATION. Our gear reducers, gearmotors and electric motors are versatile as they can be used in several sectors and in a variety of different applications remaining always highly reliable and performing, in any condition.

Gears and Motors with Rossi

The Company ROSSI S.p.A. established in 1953, has been the manufacturer of a standard range of gear reducers, gearmotors and motor-variators. The ROSSI MOTORIDUTTORI philosophy is based on the desire to "press forward", the awareness of the need to make constant progress in innovation.

If compared to those on the market today, Rossi boosts one of the broadest ranges of gear reducers and gearmotors, both in terms of completeness and models offered, with a range of torques available that goes from 30 Nm to 3 million Nm. It will therefore always be possible to find the product most suited to the customer's needs.
