The content is applicable for project managers, architect roles and consultants who are supporting an implementation project and provides the basics to continue with deep dive topics (e.g.

Abiranjani Malarahithasarma - SAP S4HANA CLOUD Consultant ...
I understand there are many advantages to using SAP rather than homegrown systems - to help decide between that and integrations with SAP I'd like to get an idea of how painful integrating with it would be. We're about to start 3 weeks of training sessions, and I haven't touched SAP before, so apologies if this post is incredibly naive.
